

AQUALISA

A modern bathroom scene featuring a shower with a large rain showerhead and a handheld showerhead. The shower is set against a light-colored wall. To the right, a blue wall features a large circular mirror with a glowing blue ring around it. Below the mirror is a white pedestal sink with a chrome faucet and a blue glass. The overall aesthetic is clean and contemporary.

A GREAT DAY STARTS
WITH A GREAT SHOWER

A close-up photograph of a man's face and upper torso during a shower. He has his eyes closed and a relaxed expression. Water is splashing all over him, creating a dynamic and refreshing scene. The background is a plain, light-colored wall.

A GREAT DAY STARTS WITH A GREAT SHOWER

AQUALISA INNOVATION

Aqualisa is proud of its history and is a name homeowners and installers can trust for quality, reliability and service.

We have been at the forefront of showering technology for over 40 years. In 1977 we changed the British bathroom forever with our revolutionary thermacoil shower valve.

In 2001 we invented the first digital shower, offering precise control, consistent temperatures and a range of user friendly features, and in 2017 we introduced Q™ our latest smart mixer shower. Packed full of features created with you in mind. Our most personal shower yet.

THE THERMOSTATIC VALVE REVOLUTIONISED

In 1977, our founder's invention of the bi-metallic thermostatic mixer valve changed the face of showering. Straightforward to install, it reacts to water flow and temperature changes instantaneously. Helping make showering an everyday pleasure for millions of people.

OBSESSED WITH SHOWERS

We are passionate about showering and bathing. Our inspiration has always been the same, to commit to making showers that deliver the perfect showering experience, every time.

Our way of thinking is to use new innovative technology to improve your shower experience. To us, innovation is part of our culture.

We know what you want and with you in mind we design and manufacture products that are renowned for their power, performance and reliability. We also focus on safety, quality, durability and, as expected, looks are important too. With inspiring designs, you can express your own sense of style and individuality.

Our showers are evolving every year. We mean it when we say that we're obsessed with showers. So, choose Aqualisa and we will make sure a great day starts with a great shower. Every single time.

SMART DIGITAL SHOWERS & BATH

FOR EVERYDAY HOMES

Aqualisa introduced ground breaking digital technology for showers in 2001 and has remained the leading innovator in smart showering ever since. Smart features include touch controls, remote activation and pre-set flow and temperature options that all add up to a uniquely personal shower that you can look forward to every time you step in.

Smart technology works in all bathrooms, providing individual, temperature-perfect showering and bathing for the whole family. As well as different shower configurations, the range includes smart bath fill options for total flexibility and reassurance for the whole family.

POWER SHOWERS

INVIGORATE YOUR DAY

Our Aquastream power shower is the ideal solution if you are experiencing a weak shower due to low water pressure from your stored water supplies.

Easily installed, it mixes water from the hot and cold supplies to create and maintain your desired temperature. An integral pump will boost the water flow up to an exhilarating 18 litres per minute, for a great shower, anywhere in the house.

ELECTRIC SHOWERS

THE FAMILY FAVOURITE

Aqualisa electric showers are simple to install and easy to use. As well as award winning performance, they come in a contemporary design and finish.

The ideal solution for simple showering, an electric shower offers an endless economical flow of water and unlike other showering systems, will not use your stored hot water. The perfect solution for smaller or additional shower rooms or en-suites.

AQUALISA Q™

Concealed – single outlet, dual outlet and divert bathfill

We are proud of Q™, our next generation smart shower that's revolutionised the way we shower. Based on Aqualisa's precision smart technology ensuring superb performance and packed full of features, this is our smartest and most personal shower yet.

Crafted with high quality materials, Aqualisa Q™ was designed with individuality and style in mind. Whether you prefer to make a style statement, unwind after a work out or do your bit for the environment, Q™ is designed to fit around you.

- Unique proximity sensor that reduces water flow when stepping away from the shower
- Touch on/off switch
- Single control lever
- Optional wireless remote control
- Pre-set and personalised shower experiences
- TFT colour display screen
- Choose from 5 different colour accents

 For full range, features and prices **See page 38**

Aqualisa Q™ with adjustable and fixed wall head with Sunrise Orange accent. See page 39. Product Code - QTC.02.FW.GP/QTC.02.FW.HP/QTD.AA.05

AQUALISA Q™

Exposed – single outlet, dual outlet and bathfill

Q™ is designed to fit around you and your lifestyle. Intuitive and easy to use, you're always in complete control.

For ease and speed of fitting, the exposed option causes minimal disruption to the existing shower area.

The intelligent proximity sensor will greet you with a friendly 'hello' and you can effortlessly move the single Q™ lever to choose a pre-set programme or create your own unique experience to enjoy every time you step into the shower.

- Unique proximity sensor that reduces water flow when stepping away from the shower
- Touch on/off switch
- Single control lever
- Optional wireless remote control
- Pre-set and personalised shower experiences
- Colour display screen
- Choose from 5 different colour accents
- Easy to install

Choose a remote control, allowing you to turn the shower on from outside the enclosure.

The Vita handset comes with 5 different modes and colour to match your control.

 For full range, features and prices **See page 38**

QUARTZ™

Concealed – single outlet, dual outlet and bathfill

As the shower that launched a brand new showering experience back in 2001, Quartz™ remains the best known digital shower in the UK.

Stylish and compact, the concealed Quartz™ control is a good choice for smaller showering spaces.

The iconic Quartz™ still sets the standard for simple and intuitive control that consistently delivers an individual showering experience at the touch of a button.

- Precise, temperature perfect, thermostatic showering
- Easy to use push button start/stop and divert control
- Intuitive LED display shows the chosen temperature has been reached
- The convenience of a remote control
- Set to 'eco' mode and save up to 33% water
- A range of useful accessories such as retrofit wallplate, corner fixing brackets and rail extension will make retrofitting a Quartz™ smart shower simple
- Suits all approved UK domestic water systems

A smart remote can be fitted up to 10 metres from your shower.

This stylish chrome finish bath filler also acts as an overflow.

Easy to use push button controls, just step in when the LED display stops flashing.

 For full range, features and prices **See page 40**

QUARTZ™

Exposed – single outlet, dual outlet and bathfill

A subtle yet distinctive design, Quartz™ remains the proven and trusted shower it has always been.

Smart features include a one touch control with a distinctive blue LED indicator showing you when it's time to step into your temperature perfect shower, as well as the option of a remote control which can be positioned outside of the bathroom.

For the simplest installation, less pipework and no damage to décor or tiling, choose the Quartz™ single outlet exposed shower.

These showers and bathfills are both versatile and incredibly easy to install.

- One touch start/stop control with 'shower ready' display
- Illuminated controls show when the shower temperature has been reached
- 'Eco mode' reduces water usage by up to 33%
- Suits all approved UK domestic water systems
- Easy to install

For total luxury why not choose a remote to turn your shower on from outside the shower enclosure.

For full range, features and prices **See page 40**

ISYS™

Concealed – single outlet, dual outlet and bathfill

Sleek, sophisticated and the perfect partner for modern living, iSys™ is a great choice.

Just one touch will start/stop your shower and the flush fitting concealed control lets you make the most of your showering area, whatever its size.

Enjoy a truly versatile showering experience by switching easily between the luxurious drencher and adjustable head or bath fill.

- Touch on/off switch
- Boost button for a powerful showering performance.
- Treat yourself to the convenience of a wired remote control
- LED indicator showing you when it's time to start showering
- Comes as both dual and single outlet showers

The iSys™ controller has a modern minimalist look.

 For full range, features and prices **See page 44**

VISAGE™

Concealed – single outlet, dual outlet and divert bathfill

Beautifully styled in bright, polished chrome, Visage™ is the perfect introduction to modern digital showering. Visage™ has flexible, space saving configurations, a long rail and simple one touch controls to make it adaptable to all your bathing and showering needs. With consistently safe and reliable temperatures, it's the perfect choice for busy family bathrooms.

- Simple to use, one push to start or stop, and push and hold to divert between outlets
- LED display on the control shows that water has reached temperature
- Comes as both dual and single outlet showers
- Choose a remote control and you can start the shower from outside the shower area

For full range, features and prices **See page 46**

For additional water savings click the 'eco' setting on the head.

Simple one touch control with intuitive 'shower ready' LED.

Visage™ dual outlet concealed with adjustable and wall fixed drencher heads and remote control. See Page 47. VSD.A1.BV.DVFW.14/VSD.A2.BV.DVFW.14

VISAGE™

Exposed – single outlet, dual outlet and bathfill

Keep it simple with an exposed Visage™ shower. Combining a premium look with an integrated control unit and slide rail, it delivers the full digital benefits of precise flow rate and temperature selection as well as alternative outlet choices, including adjustable 4 spray handset, drencher head and bath fill.

So, both easy to use and certainly easy to fit, Visage™ will enhance any bathroom.

- One touch controls make Visage™ easy to use for all the family
- Flashing to steady LEDs show that water has reached temperature and it's time to step in
- Choose an exposed shower and upgrade your bathroom with minimal disruption
- Set 'eco' mode on installation and save up to 33% water
- Comes with a 90mm Harmony™ shower head with 'eco' spray setting for additional 25% water savings
- Alternative choices include a concealed adjustable or luxurious drencher head
- Suits all approved UK domestic water systems
- Easy to install

Contemporary looking, slimline bath fill and no fiddly taps

Switch on your the shower before you step in with the discreet remote

Aspire DL concealed mixer shower with adjustable head
See Page 76. ASP001CA

ASPIRE DL

Mixer shower with fixed or adjustable head

Sophisticated, sleek and stylish, the Aspire dual lever shower combines timeless good looks with precise control over temperature and water flow.

- Luxury brass valve with chrome finish
- Dual lever for effective flow and temperature control
- Generously proportioned 105mm Harmony™ shower head with 4 impressive spray patterns
- 'Eco' spray setting delivers up to 25% water saving
- Easy clean nozzles to help reduce limescale from shower heads
- Exposed and concealed systems are available
- Suits all approved domestic UK water systems

Aspire DL is designed for use with all approved UK domestic water systems. It is available in a concealed or exposed body style

Aspire DL exposed is the perfect choice for exposed shower refurbishments, upgrades and replacements – the adjustable elbows are easy to adjust, making it a favourite with installers

 For full range, features and prices **See page 76**

AQUATIQUE™

Mixer shower with adjustable or drencher head

Classic styling meets sensational showering and the timeless luxury of solid brass valves and shower heads. Aquatique™ is a stunning addition to any bathroom.

High quality, durable brass fittings for a traditional, sophisticated finish

- Timeless, classical styling
- Luxury brass shower valve
- Wide range of heads in chrome or gold finish
- Exposed and concealed systems available
- Aqualisa's unique bi-metallic thermostatic technology for precise, reliable performance
- Automatic cut-off, should hot or cold water fail, makes for safer showering
- Separate on/off and temperature control

A generous range of shower head options means you are sure to find a shower that suits your needs and style

PROVEN TECHNOLOGY

The Aquatique™ Thermo range combines traditional elegance with Aqualisa's thermostatic technology. Constantly refined and improved over the last 40 years, for an unsurpassed shower experience. A unique bi-metallic valve control instantly reacts to temperature fluctuations and water flow for a consistent performance. A shower that's as stylish as it is invigorating.

USEFUL INFORMATION

Smart technology explained	104
Ecological features	106
Retrofitting	108
Customer care	110
Guarantee	112

Pioneering smart technology

Just as Aqualisa broke new barriers with the first bi-metallic thermostatic valve, our smart technology has revolutionised the bathroom. We launched the very first digital shower in 2001. Easy to use and install, it was quickly embraced by installers and homeowners.

The simple functionality is a breeze to use and the compact smart valve that is at the heart of every shower, makes for much greater flexibility in fitting.

WHAT ARE THE ADVANTAGES OF SMART SHOWERS?

For the user, one touch control means you don't have to fiddle with temperature or flow controls when your hands are wet and soapy. Intuitive LED lighting lets you know when the water has reached your perfect temperature and it's time to step in; no more guesswork required.

Adding a remote control is both luxurious and practical and if you have a dual outlet shower you can also use the remote to select the outlet you would like to use first.

For the installer the main advantage is being able to site the smart valve away from the showering area. There is no bulky valve to build into a wall so it can be a very speedy, fuss-free fit.

THE QUARTZ SMART VALVE

This ingenious kit is the beating heart of your shower. Usually sited away from the bathing area – in a loft or airing cupboard – it blends hot and cold water with thermostatic precision before directing it to your shower or bath.

All our processors have an optional 'eco' mode, activated during installation, to help you save water. A slim data cable connects the processor to the control.

If you've chosen a dual outlet shower, it will come complete with a diverter box. This is fitted in line with the shower's smart valve and ensures water is sent to your preferred outlet.

IS IT COMPATIBLE?

Almost certainly, yes. smart showers work perfectly with high pressure, combi and gravity water systems. For the latter, you will need to specify a shower with a pumped smart valve. This has been designed specifically with a gravity water system in mind and, thanks to the smart valve's integral pump, will give your shower a helping hand.

PERFECT SHOWERING GUARANTEED

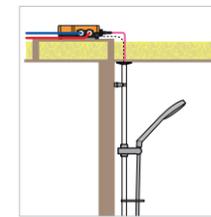

All Aqualisa smart showers are built with the highest specifications and come with a 5-year guarantee.

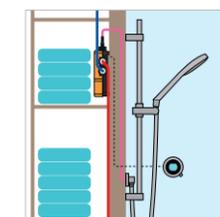

Our shower ranges will provide you with years and years of trouble free service, are virtually maintenance free and the Harmony™ shower heads are easy to clean which helps to reduce limescale build-up.

Our after sales service is second to none and we'll be happy to help with any queries you may have at any stage of your purchase.

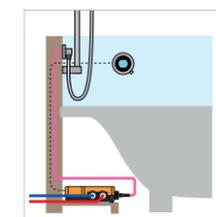

LOCATE THE QUARTZ SMART VALVE...

In the loft

In the airing cupboard

Under the bath

For more information on smart showering and bathing visit www.aqualisa.co.uk

BEAUTIFULLY SIMPLE CONTROLS

Thanks to a simple push button action our smart controls couldn't be easier to use. Press the button and the LED display will flash, indicating water is warming up. When the display stops flashing it's time to step in. Depending on the model, the control might also feature a 'boost' button or a button that allows you to divert water to a different shower head or bath fill.

For more information on smart showers go to pages 8 -9

..... ecological features

Every drop counts

Builders, developers and consumers are increasingly aware of their ecological responsibilities. As a shower manufacturer the need to save water, save energy consumption and reduce your bills is always top of mind.

It's estimated that an average family can get through around 600 litres of water a day*. A lot of that takes place in the bathroom.

Thankfully, advances in technology mean we can all save water and still stay clean. Aqualisa's designers have gone to great lengths to ensure we offer eco-solutions across smart, mixer and electric showering ranges with innovative ways to help you save water without compromising your showering experience. If we all do a little, a lot can be achieved.

*Based on figures from WaterWise (www.waterwise.org.uk)

VITAL SAVINGS

All our electric showers carry the **European Water Label** and are rated Energy Efficiency 'A'

ECO SMART

Our smart showers have a number of unique eco features, to help you do your bit for the environment.

The smart valves in our Quartz™ and Visage™ showers can be set to 'eco' mode capable of reducing water flow by up to 33%, or as little as 8 litres per minute.

Our new Q™ smart shower features a clever proximity sensor, meaning that water is automatically reduced to minimum flow when you move away to shampoo or condition your hair or shave your legs, and then returns to your original setting as you move closer.

DID YOU KNOW?

THE AVERAGE BATH
USES UP TO
**100 LITRES
OF WATER**

That's in comparison to a quick shower, which uses around 30 litres of water. So if you want to be greener in the bathroom, it makes sense to shower. Activating Aqualisa's smart shower 'eco features' will help too – as will using the 'eco' spray on our Harmony™ shower heads, the eco-stop button on our bar valves or using appropriate flow regulators.

..... ecological features

Control the flow

Our Midas™ showers are also available with a choice of regulators that limit water flow to as little as 6 litres per minute. They save water, reduce running costs and meet existing building regulations.

In Harmony with nature

Ideally, we all want a powerful shower that doesn't use too much water. Shower head design is crucial in terms of both ergonomics and ecological efficiency.

Some water-saving shower heads aerate the flow of water to deliver the 'illusion' of bubbles, but we weren't prepared to compromise the way your shower looks or feels. Our Harmony™ heads use intelligent design to deliver a fuller spray whilst allowing you to make water savings of up to 25%.

When the 'eco' spray on a Harmony™ shower head is selected, the shower head concentrates and angles the spray from its two outer rings. The result is a spray pattern that is refreshing and generous yet incredibly efficient in terms of water consumption.

Harmony™ shower heads are available on Quartz™ and Visage™, Midas™ 100 and 110, Aspire DL, Siren™ SL, Colt™, Aqastream™ and Dream™.

'Eco' spray pattern

Outer spray pattern

Refurbishing and refitting your bathroom?

Refurbishing an old bathroom from scratch can be a big job, so if time and budget are limited, or you simply want to smarten up your shower, why not opt for a refit? When it comes to refurbishments, Aqualisa has long been regarded as a go-to brand by those in the know. All with good reason, because no matter the system or showering technology, there's a very good chance we'll be able to help you find the perfect solution.

GO SMART, MINIMISE DISRUPTION

An exposed smart shower can be up and running in as little as a few hours. A brilliant solution for any new bathroom, but it's especially good for over baths or bathrooms where there hasn't previously been a shower.

Because the control is mounted on the shower rail which doubles up as the blended water pipe – all that needs to be done is to feed the pipework through a small hole in the ceiling, connect it to the smart valve and fix the shower to the wall – no damage to existing tiles or décor. It really is that simple.

QUARTZ™ SMART RETROFIT WALL PLATE

Replacing an old built-in-shower with a smart model is exciting. However, if you find some damage when you remove your old shower, you can easily conceal this with a Quartz™ smart retrofit wall plate. It's perfect for disguising the cavity left by the old valve and creates a really streamlined appearance.

DID YOU KNOW?

A SMART SHOWER CAN SOLVE NEGATIVE HEAD

If you need to fix a shower head above the water tank base, choosing a smart shower with a pumped smart valve, makes it perfect for loft conversions!

Upgrade a bar valve to Midas™ shower column

Changing your bar valve? Why not upgrade to a new, multitasking bar valve that offers the versatility of two shower heads? Thanks to the clever retrofit features of bar valve mixers such as Midas™ 110 and 220, installing them is a lot easier than you might think.

Midas™ 220 shower column

REPLACE AN EXPOSED SHOWER WITH AN ASPIRE DL OR SIREN™ SL

Replacing an older, exposed shower doesn't need to be difficult when you can use one of Aqualisa's new generation mixer showers. The exposed models of both our Aspire DL and Siren™ SL shower ranges feature adjustable inlet centres, ideal for refurbishment projects where a degree of flexibility is required.

EASIER ELECTRIC SHOWERING

If you need to upgrade an electric shower look no further than Quartz™ Electric. The shower has been designed with refits in mind and has an extra roomy 'footprint' to hide all traces of the previous shower. Your installer will also love it as the Quartz™ Electric features two positions for earth connection and will also allow you to use the previous shower's compression elbow, handy for simplifying the replacement procedure.

..... customer care

You have our full support

We pride ourselves on fast, friendly and efficient customer service. So, whether it's a quick question about your new shower, a technical query or if you would like to arrange a visit from one of our nationwide service engineers, simply pick up the phone, email us or visit our website for a live chat. We'll be happy to help, regardless of the age of your shower.
